IMPORTANT INTRODUCTION

Be diligent to present yourself approved to God, a worker who does not need to be ashamed, rightly dividing the Word of truth.

NKJV

Over a year ago, one of the students who attend our local Associational Bible College Extension shared his wish for someone to come up with a list of books and authors that were the best selection for his library. He did not want to waste money purchasing books that were misleading and of no value. From this conversation the idea was planted that there was a need for this book. The compiler felt that he was not the one who should make up a personal list of books, authors, and websites. He reason that for such a book to be legitimate, many experts in different fields, and/or well known conservative leaders within the Georgia Baptist Convention would fill the position of selected participants in such a venture. The compiler sent his first questionnaire to a chosen group of individuals that covered the last four parts of the book. He selected conservative presidents and professors from Brewton-Parker College, Truett- McConnell Colleges, and Luther Rice Seminary, in addition to well known conservative pastors; some who served in high positions in the Georgia Baptist Convention. Several specialist and consultants with the Georgia Baptist Convention also contributed their knowledge. Contributors were informed that the recommendation should contain helpful information directed not to professors of colleges, but to the average conservative Baptist minister. The compiler was pleased with the response.

After several months of gathering and organizing the volunteered information more information was needed. There after, the compiler sent out an additional questionnaire intended to gather information for the first part of the book. At this time many other contributors were selected to make recommendations. The compiler selected the books and authors in each category that had the greater recommendations by the contributors. As result, not all recommendations were used. Some were excluded because the contributor's writing was not legible enough for the compiler to read or that the contributor did not provide enough information in his or her recommendations. After all the information was gathered and compiled, several well known trustworthy ministers were asked to review the information so as to guard against liberal or worthless information. The contributors also made additional recommendations. After eleven months the work was completed. The compiler prays that the following information helps our ministers to select the right books and authors that will be a help, not hindrance, to their ministry, and he gives thanks to all who made recommendations.

Those who use this information have the right to make copies and to share with others. You also have the permission to add this list on your website. However, you are not to make changes to this work without written permission. You are asked to share with the compiler any additional books, authors, or websites that you feel are better than those in any of our categories. This is asked because there are plans to update this book each year. One may receive the update by going to www.cobaptist.org and click on "Recommended Baptist Library." If you wish to contribute click onto the mailbox that is on the website and give me your name, Baptist church you are a member of, and your position. Please, share if you work with the Georgia Baptist Convention or teach at a conservative Bible college of seminary. You may help in another way by sharing with the compiler any book in any of our categories that you find to be the least helpful. You may also share additional websites with us.

Much thanks and appreciation is given to Robyn McGee, my wife and association office assistant, and to Jessica Sellers, Consolation Baptist Association's Summer Missionary, for their work and dedication in editing this work and for sharing their many great ideas.
